Emergency Operations Plan

RESOLUTION NO. 15-11-1622
MIAMI COUNTY EMERGENCY OPERATIONS PLAN ADOPTION &
PROMULGATION STATEMENT

Mr. O'Brien introduced the following resolution and moved for its adoption:

WHEREAS, preparedness to cope with the effects of a disaster includes many diverse but interrelated elements which must be woven into an integrated emergency management system involving all departments of local government and private support agencies, as well as the individual citizen; and

WHEREAS, planning for population protection must be a cooperative effort to avert or minimize the effects of natural, technological, and/or man-made disasters, protect lives and property, and restore the stricken area to its pre-disaster status with a minimum of social and economic disruption; and

WHEREAS, many agencies from local, state and federal sources may be involved in emergency response and management, thus requiring a consistent nationwide approach to ensure these agencies work together in their full capacity regardless of the cause, size or complexity of disasters. The National Incident Management System (NIMS) provides for this approach, and the *Miami County Emergency Operations Plan* was developed to be responsive to federal requirements contained in the NIMS and is subject to approval by the State of Ohio and the Federal Emergency Management Agency (FEMA).

NOW, THEREFORE BE IT RESOLVED, by the Board of Miami County Commissioners, that pursuant to the Ohio Revised Code, (ORC Section 5502), Miami County has established the Miami County Emergency Management Agency (EMA), and that the EMA is, to the limits of its capabilities, responsible for the disaster preparedness activities within Miami County.

BE IT FURTHER RESOLVED, that the Board of Miami County Commissioners does hereby approve and adopt the *Miami County Emergency Operations Plan*, which is filed in the Office of the Miami County Commissioners in Troy, Ohio, and which is incorporated herein by this reference.

Mr. Cultice seconded the motion and the Board voted as follows upon roll call:

Mr. O'Brien, Yea;

Mr. Evans, Yea;

Mr. Cultice, Yea;

PASSED AND ADOPTED by the County Commission of Miami County, State of Ohio, this 24th day of November, 2015.

County Commissioner

EMA Director

MIAMI COUNTY EMERGENCY OPERATIONS PLAN

FOREWARD

The Emergency Operations Plan (EOP) for Miami County and the municipalities therein, dated November, 2015 revises and replaces the previous plan, dated August 2014. This plan provides Miami County, Ohio and its political subdivisions the basis for a systematic approach to the solution of problems created by the threat or the occurrence of any type of disaster by identifying the responsibilities, functions, operational guidelines, and working relationships between and within the governmental entities and their various departments, private support groups, and individual citizens. Per the National Incident Management System (NIMS), this plan provides a coordinated framework for local, state and federal response forces, should they all be activated, to work cooperatively to achieve incident response and management goals.

The Miami County Emergency Operations Plan was originally developed jointly by the Miami County Emergency Management Director and federal, state, local, private and volunteer organization representatives from departments and jurisdictions that have been tasked with emergency responsibilities. Subsequent updates have been completed by the Emergency Management Agency. Local officials tasked with responsibilities in the plan have been given the opportunity to review and guide the revisions to the plan. This plan is intended to be used in conjunction with other plans and hazard analyses that have been developed for Miami County. The goal to be achieved is to save lives and protect property by developing programs and emergency operational capabilities that prepare for, respond to, and recover from any emergency or disaster – whether natural, technological, or man-made.

The Miami County EOP is a living document requiring continual improvement and development based upon increased understanding, policy development and lessons learned from exercises, tests and actual emergencies affecting Miami County. It is a document “owned” by all departments of government and it is a product of the collective cooperation and assistance of those departments.

This document establishes a format and guidelines for Miami County emergency response and consists of a basic plan, emergency support functions, hazard specific appendices, and attachments. Several sections were developed and/or revised to reflect the National Incident Management System (NIMS).
